New patient visits require payment on the same day as treatment. Any services billed must be paid upon receipt of statement unless arrangements are made prior to treatment. Credit reports are obtained on all new patients to determine financial eligibility and down payment requirements. A monthly finance charge of 1.5% (18% annually) begins on charges 60 days after billing. Should the account be turned over to a collection agency, I agree to pay all costs of collection including, but not limited to, court costs, agency fees and attorney fees.

****PLEASE NOTE:** We will provide a computer-generated insurance form following each visit and submit the insurance form to your insurance company. A Pretreatment estimate will be submitted to your insurance company **upon request only**. Please check with your insurance company to determine pretreatment filing requirements. Patients are confused about how much the insurance company will pay. Percentages are reimbursed based on the insurance company's table of allowance – not the dentist's charges.

You are responsible for the full payment of the services charges.
